1. You guys seem really happy with the course so far!
2. The lecture slides are a big hit!
3. You also liked the examples and questions
4. Many of you were happy with the engaging Q&A that went on throughout the lesson
  - Though some of you were not
5. There are some difficulties with Equity vs Liabilities
  - This is a common difficulty, we will be working on it more this week and next

# Review of feedback

Not asked this year, but a common question in the past:

7. How to take notes? A few options:

1. Use your own [virtual or paper] notebook
2. Take notes on the PDF copy of the slides (on eLearn and my website)
  - For windows, you can use Adobe Reader, Drawboard, etc.
3. Print out the slides and take notes on those
